

Have Fun with Learning

We are implementing interactive newsletters and social media posts for the 2024-2025 school year. None of these activities are required and are just helpful suggestions to continue your child's learning outside of the classroom.

Newsletter Images

Each Newsletter will contain weekly themes and focus. Topics of focus are shown in images so your child can review the newsletter with you and share what they are learning each week.

Weekly focus topics include:
Letter, Number, Color, Shape and Continent.
